

CardNav Registration Instructions

CardNav is a user-friendly application that can be downloaded for Apple IOS or Android phones and tablets. Once downloaded and registered, the application will allow members to control, how, when and where their debit card can be used.

In addition to security protections, you may also transfer between credit union sub-accounts (*checking, savings, etc.*)

To register please follow these steps.

- 1) Download application from the Apple App Store or from Google Play
(application not currently available for Windows Phones/Tablets)
- 2) Once downloaded, open the application on your device
- 3) Click the **“New User”** tab
- 4) In the space provided, enter the complete debit card. Please note the spaces are automatically added, so no need to add the spaces manually.
- 5) Enter expiration date, CVV code (3-digit number on back) and street address.
- 6) Enter last 4 digits of your **SS#**
- 7) Please enter a **“User ID”** of your choosing
- 8) Enter a password for the application *(Must be 8-12 characters and include 1 Upper Case Letter, 1 number and 1 special character)*
- 9) Enter Passcode *(Optional)* this is a 4-digit code to use instead of the user name and password combination each time. This will also allow you to enable the Touch-ID for fingerprint unlocking.
